Warning details:

Dear R.J.Trenwith,

We have observed that many of your edits involve the deletion and subsequent replacement of bulk text from transcripts that are already accurate. This has resulted in you being credited for text corrections that are not improving the relevance of searching on Trove. Improving the accuracy of search results is the primary reason why the National Library invites the community to participate in text correcting. While some of your corrections appear legitimate, this bulk editing behaviour appears to be solely for the purpose of boosting your status as a text corrector .

The removal and editing of text that is already correct is not encouraged. We have rolled back some of the changes we have identified and will monitor activity to see if this continues to be a pattern of behaviour.

Regards

Trove Management
